

Breastfeeding program for healthcare profession

World
Breastfeeding
August Week

Aims:

To provide an updated and evidence-based breastfeeding knowledge and skills to health care professionals with practical skills in order to prevent and manage breastfeeding problems that helps the breastfeeding mothers to continue breastfeeding

Objectives:

- To provide updated knowledge and skills to prevent breastfeeding problems such as blocked duct, breast pain and mastitis.
- To early identify and manage the breastfeeding problems using appropriate assessment with intervention
- To provide knowledge on appropriate diet for breastfeeding mothers, and their infants after weaning
- To provide updated knowledge on assessing the growth of the infant
- To provide knowledge on Chinese Medicine in supporting the health of the breastfeeding mothers during “doing the month”
